

Use these printouts to make your very own set of Chicago Booth Photo props.

Required materials:

Attached prop printouts

Exacto knife or scissors

Dowels or wooden craft sticks

Tape

Optional materials:

Foam core or poster board

Spray mount or glue

Step One: Use an Exacto knife or scissors to cut out the shapes of each prop.

Step Two: Tape a dowel or wooden craft stick to the backside of each.

Step Three: Take photos at your Worldwide Booth Night celebration using these props and post to Twitter, Instagram, and Facebook using #BoothNight16.

Optional: To make sturdier props, use spray mount, glue, or tape to adhere the paper to foam core board or poster board before cutting out each shape.
