We are looking for highly skilled and motivated individuals to work as full-time research assistants for a period of at least one year. Our preferred start date is June 15, 2023 although earlier or later start dates may be feasible. Applications are reviewed on a rolling basis. The first review is October 17, 2022, and we will continue to review applications received after this date until all positions are filled.

The job will entail close collaboration on a number of new and ongoing projects using tools from applied microeconomics to answer questions across a broad range of fields. Research topics include public economics, inequality, development, labor economics, macroeconomics, fiscal and monetary policy, behavioral economics, household finance, market design, financial intermediation, trade, urban economics, education, international economics, and industrial organization. Candidates will be matched to work with one or two of the professors listed in the header as well as their collaborators in different departments. The matching between Research Professionals and Professors will be determined in part based on mutual interests. Previous holders of this position at Chicago Booth have gone on to Ph.D. programs at Harvard, MIT, Princeton, and the University of Chicago.

If interested, please fill out our online survey ([https://forms.gle/ZYMfStDucbz3nCpv7](https://forms.gle/ZYMfStDucbz3nCpv7)) and this formal application ([https://uchicago.wd5.myworkdayjobs.com/External/job/Chicago-IL/Research-Professional_JR18481](https://uchicago.wd5.myworkdayjobs.com/External/job/Chicago-IL/Research-Professional_JR18481)). When you complete your application, you will receive the details of a data task we would like you to complete. That data task is not timed, but so that you can plan your time, know that we expect it to take four hours or less. Data task responses must be submitted by October 17 for your application to be part of the initial review. We will also ask for two letters of reference to be submitted to [https://forms.gle/SAaqGTVWkcfBkmxf7](https://forms.gle/SAaqGTVWkcfBkmxf7) by October 17 for that first review.

The ideal candidate will have (i) a strong quantitative background, (ii) strong computer skills including programming, (iii) the ability to work independently to solve problems, and (iv) a long-term interest in pursuing research in economics. Background in economics is a plus, but not necessary—we welcome candidates with strong technical backgrounds who are looking for more exposure to economics. For a subset of the positions, a background in economic theory is also a plus. We pay a competitive salary ($50,000 base) and provide standard benefits such as health insurance.

Chicago Booth fosters a positive work environment for our research staff, including significant RP-specific programming. To learn more, visit our website. To learn more about pre-doctoral roles like this in general, and to find other opportunities, visit [https://predoc.org](https://predoc.org). We will also host an information session on October 6 from 2:00 to 3:00 p.m. CDT, which you can register for here.

Chicago Booth is dedicated to creating an environment where people of different backgrounds, broadly defined, feel valued and where their ideas and contributions can flourish. Chicago Booth welcomes applications from women, persons with disabilities, veterans, and under-represented groups. If you need an accommodation to apply to a Chicago Booth Research Staff Program, or if there are other factors impacting your ability to apply to an open position, please email ResearchProfessional@lists.chicagobooth.edu.

The University of Chicago provides equal employment opportunities to all employees, applicants, and job seekers. No person shall be discriminated against in employment or harassed because of race, color, religion, sex, sexual orientation, gender identity, national or ethnic origin, age, disability, veteran status, genetic information, marital status, parental status, ancestry, source of income, or other classes protected by law. This policy includes the commitment to maintaining a work environment free from unlawful harassment.
